OpenArc School of Business and Technology

FOUNDATION IN INFORMATION TECHNOLOGY

From university of Colombo (CFIT)

COURSE DESCRIPTION

As an alternative pathway to read for the Bachelor of Information Technology (BIT) degree of the University of Colombo, we recommend the "Foundation in Information Technology" (FIT) programme conducted by us. When you pass FIT, it is equivalent to three passes in GCE (A/L) & you can enroll for BIT.

MODULES

- **Information & communication Technology** - Microsoft 365, Multimedia (GIMP, Animations using FLASH, Audio editing & Video editing), "C" programming & SQL database handling
- **Mathematics for Computing** - to develop mathematical knowledge needed for computing: Natural numbers & integers, Functions, Relations, Indices & logarithms, number systems, Algebraic expressions, Equations, Inequalities, Measurements, Ratios & proportions, Sets, Probability & statistics, Mathematical reasoning
- **English for Computing** - to develop Listening, Speaking, Writing & Reading skills needed for computing

The University of Colombo School of Computing (UCSC) has set the syllabus. UCSC conducts exams and awards certificates. OpenArc Campus, as the Approved Partner of UCSC conducts lectures and guides students with their experience in conducting FIT since inception in 2006. Those who pass FIT can directly follow the BIT degree of UCSC, without following or passing GCE(A/L).

ENTRY QUALIFICATIONS: - G.C.E. O/L Students
